COURSE DESCRIPTION

Extreme Close Quarter Concepts:

The ShivWorks Extreme Close Quarter Concepts (ECQC) course is a two and a half day (20 hours) block of instruction which focuses on a multi-disciplinary approach to building functional, combative handgun skills at zero to five feet. The course is designed to instill core concepts of seamless integration and provide the platform for aggressive problem solving during a life or death struggle. A heavy emphasis is placed upon commonality of body mechanics between skill sub-sets, which means that all combative software is reinforcing.
